1. Claims 24, 28, 32, 37, 38, 41, 42, 44 and 46-53 are allowed over the cited prior art of record.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record disclose or teach a conflict monitor compatibility circuit with a low impedance load in series connection with the transistor, wherein: the transistor in the essentially nonconductive condition prevents dissipation of power through the low impedance load whenever the electrical input voltage is within the operating range, and the transistor in the essentially conductive condition couples the low impedance load to the electrical input for shunting leakage current from the solid state traffic controller switch when the switch is off.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
